Objective

I am seeking my first internship in technology, primarily focused on Machine Learning, followed by Data Engineering and Cloud Computing. I aim to apply the knowledge acquired during my degree, gain practical experience, and contribute to building software solutions.

Education

Pontifical Catholic University of Minas Gerais

Belo Horizonte, Brazil

Bachelor's Degree in Software Engineering, 4th semester

Aug 2024 – Jul 2029 (expected)

Academic Projects

RepairCar

Management system developed for the Só Reparos auto repair shop, centralizing work orders, parts inventory, and payments.

- Technologies: Java, Node.js, and PostgreSQL.

DriveOld

Platform designed to digitalize the relationship between auto repair shops and their customers, providing transparent vehicle maintenance tracking.

- Technologies: Java, HTML, CSS, JavaScript, MySQL, and Render.

StudyFlow

In development

Personal productivity application for managing tasks, tracking workouts, and organizing study activities.

- Planned technologies: C#, React, and PostgreSQL.

Skills

- **Programming languages and web development:** Java, C, C++, HTML, CSS, and JavaScript.
- **Databases:** PostgreSQL and MySQL.
- **Tools:** Git, GitHub, IntelliJ IDEA, Visual Studio Code, and AI agents applied to software development.
- **Currently learning:** Python, Node.js, C#, Linux, and React.
- **Languages:** Native Portuguese, intermediate English, and beginner Japanese.

Courses and Certifications

- English Language Course – CCAA, completed.
- TOEFL ITP – Score: 563.
- Red Hat System Administration I (RH124 – RHA), version 9.3 – Attendance Badge.
- Best Projects Certificate – Interdisciplinary Software Project course, 1st semester.
